

## Highland games

In the afternoon, we participated in the Highland Games and all the equipment was adapted to our ages. There were athletes who were very impressive with their muscles.

The pupils did caber tossing, tug of war, stone putt, throwing the weight for height and distance. It was good fun because there was a lot of cohesion among the 6 teams. Indeed, all the pupils showed team spirit. The team which won was The Sticky Highlands Cows of Killiecranckie.

Mr. Handerson played the bagpipes between each activity.

Caber tossing was really awesome because of the length of the caber. The most impressive sporting event was throwing the weight for height and the least impressive was the Relay race.

The sporting event the pupils liked the least was the weight for distance.
